

Yodeck Image Naming Cheat Sheet

Filename Pattern:

[start]_to_[end]__[duration]s__o[order]__[title].[ext]

Examples:

- 2025-12-01_to_2025-12-31__10s__o1__Holiday-Events.png
- __8s__Test.jpg
- o3__Village-Board-Meetings.jpg
- 15s__Concert-Series.png

Parts:

- **START** (optional): YYYY-MM-DD or YYYY-MM-DD_HH-MM
- **END** (optional): YYYY-MM-DD or YYYY-MM-DD_HH-MM
- **DURATION** (optional): e.g., 10s — defaults to 8 seconds
- **ORDER** (optional): o1, o2, o3... lower = earlier
- **TITLE**: Required. Underscores/dashes become spaces.
- **EXT**: png, jpg, jpeg, gif, webp

Quick Tips:

- Missing START = active immediately
- Missing END = never expires
- Missing DURATION = 8 seconds
- Missing ORDER = appears after ordered slides
- Expired END dates automatically hide the slide
